

DANGELO AGUILAR

Senior Full Stack Engineer Honduras | dangelo_aguilard1998@hotmail.com | +504 9507-3556 | LinkedIn

PROFESSIONAL PROFILE

Senior Full Stack Engineer with 5 years of experience designing and developing scalable applications and robust software architectures. Specialist in the .NET (C#) and Angular ecosystem, along with technologies like Node.js, Flutter, and relational database management (Oracle, SQL Server). I stand out for my ability to automate business processes, modernize legacy systems, and apply Clean Architecture principles and solid design patterns (SOLID, Repository) to deliver efficient and high-value solutions. Self-taught professional, communicative, and team-oriented.

PROFESSIONAL EXPERIENCE

HONDUCAFE | San Pedro Sula, Honduras *Senior Fullstack Engineer* | August 2025 – May 2026

- Led the comprehensive migration of legacy processes and the company's core to a new system, developing new modules adapted to plant administration and production needs.
- Designed and implemented the claims module for export contracts, centralizing the registration and management of incidents reported by international clients.
- Developed and integrated new functionalities into the company's central system, ensuring optimal performance.
- **Tech Stack:** .NET Core 8, Angular V.18, SQL Server, RESTful APIs, JavaScript, HTML, CSS, CI/CD (GitHub Actions), Git/GitHub.

CACEENP | San Pedro Sula, Honduras *Senior Fullstack Engineer* | March 2022 – August 2025

- Automated the creation of payment tables, reducing the department's manual effort by over 70% and optimizing processing times.
- Implemented a self-management user solution integrated into the financial core, decreasing support ticket generation by 40% and improving the end-user experience.
- Built a platform for the automated analysis and execution of payments through automatic withdrawals from savings accounts for affiliates in arrears.
- Developed a discount platform for overdue loans, unifying the calculation of reductions and the direct application of payments to the institution's core.
- Created from scratch an application for the automated mass sending of SMS and emails.
- Developed a raffle platform for affiliates, automating the generation of electronic tickets based on business rules.
- **Tech Stack:** Oracle PL/SQL, Oracle Database, Oracle APEX, RESTful APIs, JavaScript, HTML, CSS, Scrum, Design Patterns, Git/GitHub.

FREELANCE | San Pedro Sula, Honduras *Senior Fullstack Engineer* | September 2021 - Present

- Reduced manual work time for corporate clients by 70% by developing an application for automated report review.
- Developed a Backend system for the generation and management of digital coupons compatible with iOS and Android Wallets.
- Implemented a web and mobile platform for comprehensive self-management of appointments and service payments.
- Built a logistics platform for taxi requests, integrating real-time geolocation and tracking via WebSockets.
- Developed real-time communication solutions for instant notifications using Socket.io.
- Created a web platform for workspace administration, optimizing Human Resources workflows.
- Provided advanced technical support and modernization of legacy platforms in AngularJS and Node.js.
- **Tech Stack:** Node.js, Express.js, TypeScript, C# .NET, Angular, Flutter, Socket.io, MySQL, SQL Server, Oracle DB, PostgreSQL, MongoDB, Docker, AWS (EC2, S3), Google Cloud, Oracle Cloud, Ubuntu Server 20.

UTH | Honduras *Fullstack Developer* | January 2020 - October 2020

- Co-developed a web platform for data collection and monthly metrics generation regarding the university's national positioning.
- Implemented a centralized web system for managing institutional publications and events.
- **Tech Stack:** Node.js, Express.js, Angular, TypeScript, JavaScript, AWS.

TECHNICAL SKILLS

- **Backend & APIs:** C# .NET, Node.js, NestJS, Express.js, TypeScript, Oracle PL/SQL, RESTful APIs, Socket.io.
- **Frontend & Mobile:** Angular, Flutter, PrimeNG, Tailwind CSS, Material Design, Nebular, React, HTML/CSS/SCSS, Oracle APEX.
- **Databases (SQL/NoSQL):** SQL Server, PostgreSQL, MySQL, Oracle Database, MongoDB (Mongoose), TypeORM, Sequelize.
- **Infrastructure & Cloud:** Docker, AWS, Azure, Google Cloud, Oracle Cloud, Linux (Ubuntu), CI/CD.
- **Methodologies & Architecture:** Clean Architecture, SOLID Principles, Design Patterns (Repository), SCRUM, Git/GitHub.

EDUCATION AND LANGUAGES

- **Computer Engineering** | UTH, Honduras.
- **English:** B2 Intermediate.
- **Spanish:** Native.
